Note: When reviewing Motion E “Improvements to the Motions Process” in light of the outcome of Members’ online discussion of the governance motions, the IUCN Council decided to henceforth present the three constitutive parts of this motion as three individual motions numbered E, K and L in order to facilitate the discussion during the Congress.

Proposed amendment to the IUCN Statutes:

**Improvements to the motions process to protect the intellectual independence of the knowledge-based and evidence-based work carried out by the Commissions and Secretariat of IUCN**

**Action Requested:** The World Conservation Congress is invited to CONSIDER the proposed amendments to the IUCN Statutes to improve the motions process submitted by the Council under Article 105 of the IUCN Statutes.

DRAFT MOTION

The IUCN World Conservation Congress,

Adopts the following amendments to the Statutes of IUCN: *(cf. Table attached hereafter as Annex 1)*

[...]

EXPLANATORY MEMORANDUM

Background

1. Following the IUCN World Conservation Congress 2016, the IUCN Council considered a broad range of feedback and suggestions in view of considering improvements to the motions process:
   - The 2016 IUCN Congress Participant Survey Report dated 18 January 2017
   - Feedback by IUCN Members on the online Motions Process
   - The recommendations of the 2016 Congress Resolutions Committee
   - The article “IUCN’s encounter with 007: safeguarding consensus for conservation” published in Oryx whose authors come from a broad cross-section of IUCN.

---

1 A summary is available as Annex 1 of Council document C/93/GCC/3.2 (p. 651)
2. Council’s response to the feedback and suggestions approved at its 95th meeting in October 2018 (decision C/95/11) included proposed amendments to the IUCN Statutes, the Rules of Procedure of the World Conservation Congress and the Regulations. It was presented to IUCN Members for online discussion in November–December 2018.4

3. As requested by Congress decision WCC-2016-Dec-1135, the proposed amendments to the Rules of Procedure were submitted to an electronic vote by IUCN Members in March 2019. All proposed amendments were approved.

4. The proposed amendments to the Regulations were adopted by Council at its 96th meeting in March 2019 (Council decision C/96/17).

5. The present proposal concerns the Council proposals to amend the Statutes. They were presented by members of Council to all Regional Conservation Forums (RCF) held in 2019, and posted online for comments until 15 September 2019.

Proposed amendment to the Statutes to protect the intellectual independence of knowledge-based and evidence-based work carried out by the Commissions and Secretariat of IUCN

6. Council recommends to protect the intellectual independence of the work carried out by the Commissions and Secretariat under IUCN’s technical role, thus protecting such work from partisan interference from any source. Most organizations have no such guarantees of independence. As a knowledge-based Union that prides itself on evidence-based dialogue, convergence and consensus building, it is imperative that IUCN retains its hard-earned and critical technical and convening roles for long-term conservation outcomes and impacts.

7. The term “undue influence” in the proposed amendment to Article 3 of the Statutes means the influence by which the Commissions or the Secretariat, in their intellectual work, are induced to act otherwise than by upholding high standards.

8. No objections were received from IUCN Members during the RCF or the online consultation.

9. In June 2021, following review of the comments and proposals made by IUCN Members during the online discussion ending on 3 December 2020, the Council decided to make a slight amendment to its proposal, in response to a comment made, that referring only to standards of scientific work is inadequate in that it fails to recognise other knowledge systems, when making reference to the work carried out by the Commissions and Secretariat of IUCN. Council therefore decided to propose this amendment to Congress.

Entry into effect

10. Unless decided otherwise by the Congress, the proposed amendments, if adopted, will come into effect at the end of the Congress.

4 The table with the Council’s detailed response to the feedback is available as Annex 20 to Council decision C/95/19 (p. 170).
